#### [ISDA Publishes Report Summarizing Results of Consultation on Pre-Cessation Issues for Benchmark Fallbacks \(October 21, 2019\)](#)

ISDA published a report summarizing the responses to its consultation on pre-cessation issues relating to IBORs. The consultation period took place between May and July, and focused on how derivative contracts should address regulatory announcements that benchmarks under the EU Benchmarks Regulation (BMR) are no longer representative of an underlying market. The responses indicated that a majority of market participants would not want to continue referencing a covered IBOR in existing or new derivative contracts during this scenario. However, the responses did not establish a consensus on how to respond to this scenario. The full text of the report is available [here](#).

#### [IASB Amends IFRS Standards in Response to IBOR Transition \(September 26, 2019\)](#)

The International Accounting Standards Board (IASB) published amendments to its International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS) in response to IBOR reform. The specific standards amended include IFRS 9, IAS 39 and IFRS 7, and will

go into effect January 1, 2020. The amendments relate to requirements for hedge accounting and “are designed to support the provision of useful financial information by companies during the period of uncertainty arising from the phasing out of interest-rate benchmarks such as interbank offered rates (IBORs).”
