## **GFMA FX Division Standard Settlement Instruction (SSI) working group vendor outreach**

The Foreign Exchange Division of the Global Financial Markets Association (GFMA) has recently brought together an SSI working group comprising member banks and buy-side representatives. Its aim is to promote common industry standards in respect of SSI implementation and usage. As such, the group wishes to foster industry dialogue and discussion encompassing a wide range of market participants.

The working group will be holding an initial discussion session aimed principally at vendors to review current recommended best practice and discuss a suggested set of practical requirements for the market. It will be held on:

- **Date & time:** Monday 24th September between 1500 and 1700 UK
- **Venue:** London (TBC)

Each session is open to all market participants and attendance is free of charge. If you wish to attend please register by sending an email to: [pbird@gfma.org](mailto:pbird@gfma.org) including your name, company and contact details.

Discussion documents, along with notifications of any future sessions, will be posted on the GFMA FX Division website at: [http://www.gfma.org/initiatives/foreign-exchange-\(fx\)/foreign-exchange-\(fx\)/](http://www.gfma.org/initiatives/foreign-exchange-(fx)/foreign-exchange-(fx)/)

### **Who we are**

The Global Financial Markets Association (GFMA) brings together three of the world's leading financial trade associations to address the increasingly important global regulatory agenda and to promote coordinated advocacy efforts. The Association for Financial Markets in Europe (AFME) in London and Brussels, the Asia Securities Industry & Financial Markets Association (ASIFMA) in Hong Kong and the Securities Industry and Financial Markets Association (SIFMA) in New York and Washington are, respectively, the European, Asian, and North American members of GFMA. For more information, visit <http://www.gfma.org>

The GFMA Global FX Division, headquartered at AFME in London, was formed in June 2010 to support efforts to promote an efficient global FX market, monitor regulatory developments that could affect the foreign exchange markets and assist the industry in building out the infrastructure of the future. Its members comprise 22 global FX market participants (please see our website for more details and a list of members).
